

Los Angeles Fire Department

DEPARTMENTAL

BULLETIN

Bulletin No. 11-05

April 22, 2011

TO: All Members

FROM: D. L. Frazeur, Chief Deputy, Emergency Operations
Emile W. Mack, Chief Deputy, Administrative Operations

SUBJECT: **IMPLEMENTATION OF 2011 DEPLOYMENT PLAN**

The 2011 Deployment Plan (Plan) is designed to maximize service delivery under a reduced budget. The Plan will end the Modified Coverage Plan and provide the ability to augment coverage when needed. The Plan will be incrementally implemented beginning in June 2011, with the major implementation occurring on July 5, 2011. Some limited changes will occur after the July 5, 2011 implementation as apparatus and equipment becomes available. Members are encouraged to Email their input and supporting arguments regarding Plan implementation to lafd.deployment@lacity.org.

The Plan includes:

- Closing one Division Office
- Closing two Battalion Offices
- Closing twelve Engines and opening one Engine (net loss of eleven)
- Closing seven Light Forces
- Closing seven 800-Series Ambulances and opening three 800-Series Ambulances (net loss of four)
- Closing one Paramedic Rescue Ambulance and opening one Paramedic Rescue Ambulance
- Upgrading ten Fire resources to Paramedic Assessment Companies
- Swapping the location of a single Engine with a Haz Mat Task Force
- Eliminating Staff Assistant positions from seven Battalions
- Renaming the Staff Assistant to "Emergency Incident Technician" (EIT)
- Opening one additional EMS Battalion Office
- Increasing the Ready Reserve Engine fleet (400-Series)
- Increasing the Ready Reserve Ambulance fleet (600-Series)

EMERGENCY OPERATIONS:

Emergency operations continue to be based on company unity and the Incident Command System (ICS) as currently established by Department policy. Certain dispatch algorithms will change in order to maintain accountability. Specific operational issues will be addressed in future publications, i.e., communications plan, disposition of radios, equipment, apparatus, etc.

Command Concept:

- Initial assignment Captain I or II will assume command and then transfer command progressively to the first arriving Battalion Chief, as per current policy.
- After command is transferred to the Battalion Chief, the Captain I or II will maintain SitStat/ReStat at the Command Post until released, at the discretion of the Incident Commander.
- A Command Post Company will be dispatched on all structure responses and other complex incident types as part of the first alarm assignment.
- EMS Battalion Captains do not serve as a replacement for the EIT, but will be trained to perform SitStat/ReStat and may serve in functional positions within the ICS.

ADMINISTRATIVE OPERATIONS:

OCD will take charge of the Master Calendar.

Based on EIT and EMS Battalion Captain staffing levels, a concept of operation has been adopted where each Battalion will be “paired” with a neighboring Battalion so that each pair of Battalions has one EIT and one EMS Battalion Captain. Throughout the Department, “paired” Battalions will work together, using a “share and share alike” concept. Battalion Commanders, EITs and EMS Battalion Captains will need to work together to ensure that clear lines of supervision are adhered to while conducting Department business.

Battalion with EIT		Paired Battalion without EIT		EMS District Office	
Batt	Location	Batt	Location	EMS	Location
1	FS 4	2	FS 44	2	FS 44
5	FS 27	14	FS 60	14	FS 78
10	FS 39	17	FS 84	17	FS 84
12	FS 98	15	FS 70	15	FS 70
13	FS 33	6	FS 49	6	FS 36
11	FS 13	18	FS 68	18	FS 61
4	FS 5	9	FS 37	9	FS 59

EITs will report directly to the Battalion Commander of the Administrative Battalion where they are assigned. Some duties currently performed by the Staff Assistant will be distributed to officers and other members within each Battalion. The EIT will be responsible for staffing and assign hire for the paired Battalions. The EIT will provide daily rosters to both Battalions.

EMS Battalion Captains will report directly to the Battalion Commander of the Administrative Battalion where they are assigned. EMS Battalion Captains will handle administrative EMS issues for both of the paired Battalions and focus on EMS delivery:

- Respond to emergencies
- Manage EMS personnel: training, mentoring, evaluation
- Handle limited logistics (narcotics and ePCR support)

A number of duties currently performed by EMS Battalion Captains will be re-assigned to other areas within the Department as follows:

- EMS Division
- Medical Liaison Unit
- Station personnel
- Quality Improvement
- Training Division

RESOURCE DEPLOYMENT:

The Plan will reconfigure resources as follows:
(Resources are sorted according to the current organization)

Name	Effect on Resources	Effect on Organization
DIVISION 1		Close Division 1
BATTALION 1		Batt 1 reassigned to South Div.
FIRE STATION 003	Close Division 1 (AC & SA)	
FIRE STATION 004	Task Force 4, Squad 4, PRA 4 and RA 804 move to FS 21; Engine 21, PRA 21 move to FS 4: EMS 1 reassigned to FS 44 as EMS 2. Add RA 804, Add 400-Series Engine	TF 4, SQ 4, PRA4, RA 804 reassigned to Batt 13
FIRE STATION 009	Close Engine 209, Add 800-Series Ambulance	
FIRE STATION 010	Upgrade Light Force to Assessment	FS 10 reassigned to Batt 11
FIRE STATION 017	Upgrade Engine to Assessment, Close Assessment Light Force, add 600-Series Ready Reserve Ambulance	

Departmental Bulletin No. 11-05

April 22, 2011

Name	Effect on Resources	Effect on Organization
BATTALION 2		Batt 2 reassigned to South Div.
FIRE STATION 012	No Change	
FIRE STATION 042	Close 800-Series Ambulance, add 600-Series Ready Reserve Ambulance	
FIRE STATION 044	Add Batt 2, Add EMS office	
FIRE STATION 050	Close Assessment Engine, Upgrade LF to Assessment, add 600-Series Ready Reserve Ambulance	
FIRE STATION 055	Batt 2 moves to FS 44, SA position eliminated	
FIRE STATION 056	No Change	FS 56 reassigned to Batt 5

BATTALION 5		Batt 5 reassigned to North Div.
FIRE STATION 027	No Change	
FIRE STATION 035	Upgrade LF to Assessment, Close Engine, add 600-Series Ready Reserve Ambulance	
FIRE STATION 041	No Change	
FIRE STATION 052	Upgrade Engine to Assessment, EMS 5 reassigned to FS 59 as EMS 9	
FIRE STATION 076	No Change	
FIRE STATION 082	No Change	

BATTALION 7		Close Battalion 7
FIRE STATION 001	Close Engine, add 600-Series Ready Reserve Ambulance	FS 1 reassigned to Batt 2
FIRE STATION 002	Upgrade Light Force to Assessment, Close Batt 7	FS 2 reassigned to Batt 1
FIRE STATION 016	Close 800-Series Rescue Ambulance, add 600-Series Ready Reserve Ambulance	FS 16 reassigned to Batt 2
FIRE STATION 025	No Change	FS 25 reassigned to Batt 1
FIRE STATION 047	Close Light Force, add 600-Series Ready Reserve Ambulance	FS 47 reassigned to Batt 2

BATTALION 9		Batt 9 reassigned to North Div.
FIRE STATION 019	No Change	
FIRE STATION 023	No Change	
FIRE STATION 037	SA position eliminated	
FIRE STATION 059	Add EMS Office	
FIRE STATION 069	Upgrade Light Force to Assessment, Close Engine	
FIRE STATION 071	No Change	

BATTALION 11		Batt 11 reassigned to South Div.
FIRE STATION 006	Add 600-Series Ready Reserve Ambulance	
FIRE STATION 011	Upgrade Light Force to Assessment	
FIRE STATION 013	No Change	
FIRE STATION 020	Close Engine, Upgrade Light Force to Assessment, add 600-Series Ready Reserve Ambulance	
FIRE STATION 029	No Change

FIRE STATION 028	Add Assessment Engine, Close Assessment Light Force	
FIRE STATION 070	Add EMS Office, SA position eliminated	
FIRE STATION 087	No Change	
FIRE STATION 096	Close Engine, add 600-Series Ready Reserve Ambulance	
FIRE STATION 103	No Change	
FIRE STATION 107	No Change	

BATTALION 17		Batt 17 reassigned to North Div.
FIRE STATION 072	Upgrade Engine to Assessment, Close Light Force	
FIRE STATION 073	Close Engine, add 600-Series Ready Reserve Ambulance	
FIRE STATION 084	Add EMS Office, SA position eliminated	
FIRE STATION 093	No Change	
FIRE STATION 104	No Change	
FIRE STATION 105	Close Engine, add 600-Series Ready Reserve Ambulance	
FIRE STATION 106	No Change	

*A list of abbreviations appears at the end of the bulletin.

TRANSFER AND PLACEMENT OF AFFECTED PERSONNEL

The Plan will eliminate a total of 318 field positions (106 on each platoon) which will necessitate the formation of pools in several ranks. Pools will be established at Task Force stations in accordance with Department policy. It is expected that there will be two to three Firefighters in pool positions on each platoon in each of the 29 Task Force Stations that remain following the implementation of the Plan. There will be fewer members in rated pool positions.

April 22, 2011 – Resource closure list will be published via the LAFD Portal.

April 27, 2011, through June 8, 2011 – Vacancies will be filled according to Department Policy and past practice. Members who are assigned to a fire station that houses a resource to be closed are encouraged to request transfer to an existing, published vacancy according to Department policy and past practice. These transfers will be considered administrative transfers.

May 25, 2011 – ESB will provide detailed information on the process through which members will be selected for displacement based on seniority and through volunteers.

Instructions will be included for members wishing to submit a “priority list of desired assignments”. The “priority list of desired assignments” will be due in ESB no later than June 16, 2011.

June 22, 2011 – Displaced members will be transferred, giving consideration to the “priority list of desired assignments” provided to ESB; any existing F-18A’s on file will also be considered. All available vacancies will be filled at this time. These transfers will be considered administrative. Transfers published on Wednesday June 22, 2011 will be effective July 3, 2011.

As per Manual of Operations 3/1-20.01, the following criteria will be considered when filling vacancies:

1. The need for special qualifications to more effectively conduct the work of the Department.
2. Personal development of the member.
3. Possibility of improving performance of the individual and increasing effectiveness over previous situations which may have fostered individual lack of cooperation or conflict with other members.
4. After giving full consideration to Nos. 1 through 3 above, the vacancy shall be filled on the basis of seniority, as follows:
 - a. In grade
 - b. In rank
 - c. On the Department

Note: “house seniority” is not a factor in transfers

TIMELINE OF TRANSFERS FOR THE 2011 DEPLOYMENT PLAN

Date	Effective Date	Action
April 22		Resource closure list published.
April 27	May 8	Publish transfers. Publish vacancies.
May 11	May 22	Publish transfers. Publish vacancies.
May 25	June 5	Publish transfers. Publish vacancies. ESB sends memo with displaced members list and solicitation for volunteers to transfer.
June 8	June 19	Publish transfers. Publish vacancies.
June 22	July 3	Transfer displaced members utilizing F-18A’s and FG-53’s into vacancies and pool assignments. Publish vacancies.

Additional Information Related to Transfers

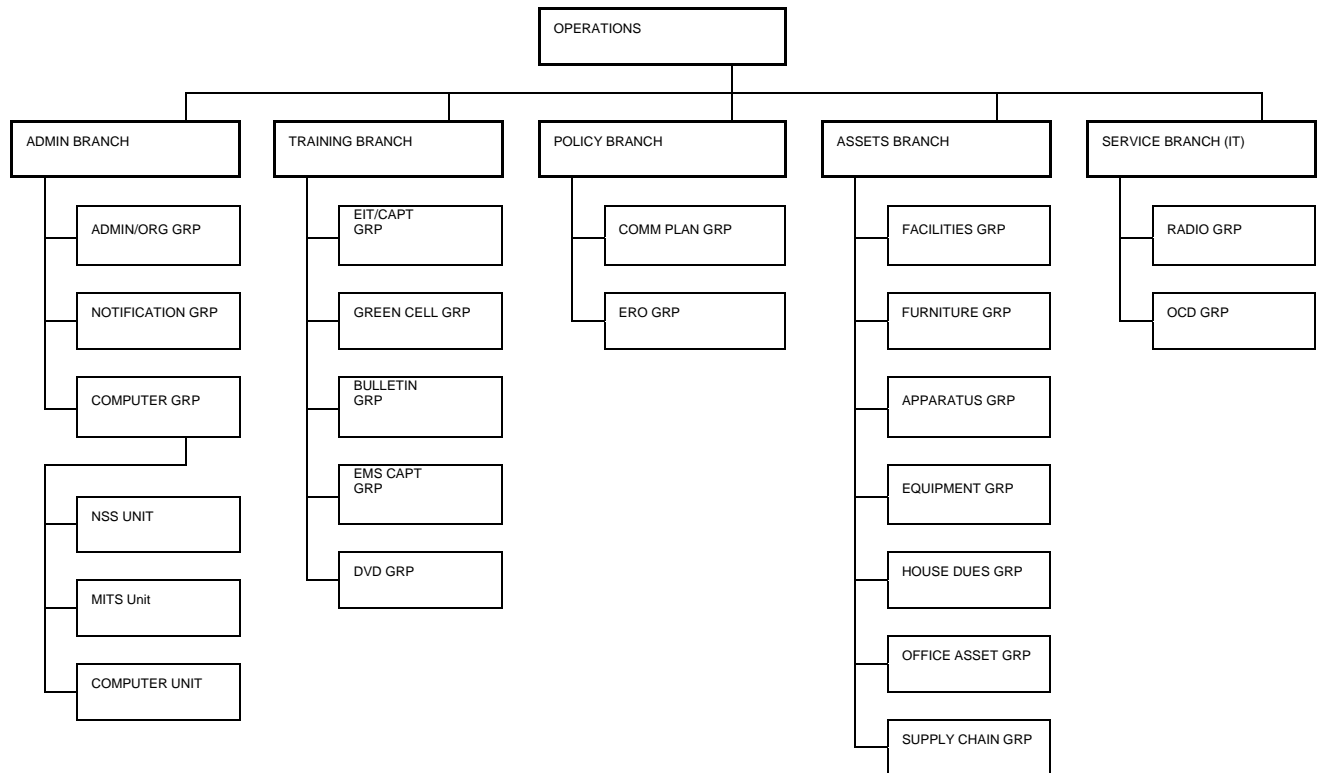

1. In all fire stations where an Engine, Light Force, or Ambulance is closed, staffing in all ranks will be reduced by transfer of volunteers and then by reverse seniority (members with lowest seniority in rank first). Firefighters’ and Firefighter

Paramedics' seniority in rank is based on their date of hire. Rated members' seniority is based on date in grade, then date in rank.

2. In Task Force assignments where an Assessment company is closed and the remaining company is upgraded to Assessment status, the Firefighter/Paramedic assigned to the bonus position will be assigned to the company upgrading to Assessment status.
3. At fire stations where a resource of one type is closing and a resource of a different type is being added, members assigned to the station will be allowed to remain in their assignment to fill new positions on their assigned platoon in their rank. Specifically, at Fire Station 28, one Firefighter/Paramedic, one Firefighter, and one Engineer on each platoon will have the option to remain assigned to Fire Station 28 to staff the newly created Engine 28. Similarly, two Firefighters assigned to Fire Station 9 will have the option to remain when Engine 209 is closed and Rescue Ambulance 809 is opened.
4. Staff Assistants in positions being eliminated will be transferred to vacant EIT positions based on seniority. Staff Assistants that are not placed into vacant EIT positions will be transferred through the same process as other displaced members. Displaced Staff Assistants may submit an F-17 for consideration for EIT positions, and if selected will be transferred to those positions according to current Department policy. Members displaced from Staff Assistant positions may submit an F-18A for any published Firefighter vacancy, and should submit an FG-53 "priority list of desired assignments".
5. Chief Officers desiring to change their preference of assignment shall submit a request for transfer (F-225) to Emergency Operations by May 2, 2011. Chief Officer transfers will be published on or before June 3, 2011. The effective date of Chief Officer transfers will be included in the publication listing the transfers.
6. Newly created EMS Battalion Captain assignments will be filled in accordance with past practice.
7. Members assigned to Fire Stations 21 and 4 will be transferred to new assignments.

IMPLEMENTATION:

An ICS transition command structure has been formed to implement the plan. The operational portion of this plan includes the following structure. Members with concerns or input regarding the specific areas identified in the structure may provide their input by e-mail to lafd.deployment@lacity.org.

FINAL CONFIGURATION

When the Department has completed its transition to the Plan, the final configuration will be as follows:
