## Motion for Board Consideration

### PRNC Board Meeting

February 12, 2018

**Motion:** Discussion and possible action to purchase a mobile solar power generator with a battery system for a cost of no more than \$3,000

**Proposed by:** Gabriel Khanlian

**Description:** The PRNC can benefit from a solar power generator that can be used to power various items during outdoor events. Home Depot sells these generators similar to the attached one, which is priced at \$2,350. This generator has a battery backup that can continue providing power during intermittent interruption of solar exposure.

**Benefits to PR:** This generator is in line with the PRNC's sustainability goals and will be useful at all PRNC events.

Is this a Time-Sensitive Motion (Yes/No)? Yes

If the answer is "Yes", please explain: *We can use this at the Community Earth Day event in April.*

An environmentally friendly backup power generator, with no fuel costs. This solar powered generator can

be set up in just a few minutes, then, all you have to do is start-plugging things in. The Solar Generator 1800 will run both AC and DC appliances, without producing noise or fumes. There is no maintenance and most importantly, no fuel required. Equipped with two 80 Amp hour batteries, that are maintenance free and enclosed in a heavy duty outer cases. The unit provides 1800-Watt of electricity at peak power and provides 160 Amp hours of reserve power. With large wheels and an expandable luggage-style carrying handle the Solar Generator 1800 is portable and versatile. Green to red fuel type meter that indicated the level of charge and an LED digital display that shows kilowatts of power coming in and out make this unit easy to use and very user friendly. Power ports included are 2 USB ports, six 120-Volt AC outlets and a 12-Volt DC outlet. Alternative energy friendly this unit is pre-wired for input from up to a 100-Watt/12-Volt output solar panel and up to a 400-Watt/12-Volt output wind generator. Includes a 1.5-Watt solar panel for battery maintenance and two 100-Watt monocrystalline solar panels for off grid and backup charging. Pair with a wind generator of up to 400-Watt 12-Volt rating for additional recharging off grid and during power outages.

- Up 1800-Watt of pure power, continuous 1440-Watt
- 6 AC outlets to power multiple appliances/gadgets
- Included auxiliary 80Ah battery box with quick connect to main powerpak for twice the power
- 2 cables included - panel cable is 12.5 ft. long and AC cable is 3.5 ft. long
- Recharge the powerpak with via AC outlet or via the included 100-watt solar panel
- Has UL and ETL certifications
- Whole kit arrives on a pallet 30x24x24 in. and weights 190 lbs.
